

Our MARKET SECTORS

FOOD INDUSTRY Fresh Pasta

Packaging System
VFFS pouch, M.A.P,
pasteurization

Typical Structure:
BOPA/ CPP(PE)
CPA/ CPP(PE)

Material

Description / Features

FILMON® BX 15 µm
FILMON® CS 30 µm

FILMON® proudly contains and protects the traditional Italian dish, one of the world's most accessible foods.

Italian garganelli, fettuccine, gnocchi, ravioli,..., German Spätzle, Polish pierogi, Greek orzo, Jewish kréplach,..., the modified atmosphere, the microclimate created to maintain the organoleptic properties of the food, will be preserved by the film to extend the shelf-life of the product of several weeks.

The selection of the **FILMON®** grade is subordinated to the preferred hand-touch and packaging machine.
