

## Our MARKET SECTORS

FOOD INDUSTRY  
Pet food

Material	Description / Features
<b>FILMON® BXB</b> <b>FILMON® BXSB</b>	<p>Retort stand up pouches has become one of the most popular forms of flexible pouches. Light weighted, able to stand alone on the retail shelf, has taken the place of many canned pet food to reduce costs and save energy.</p> <p><b>FILMON®</b> ensure the integrity of the pouch along with its content, granting quality and palatability. The reduced heat shrinkage anisotropy of <b>FILMON®</b> restrains pattern deviation in bag production, S-shaped curling or bag deformation due to the heat treatment.</p>

**Packaging System**  
 Stand-up pouch, retort

**Structure:**

Walls PET/ALU-Foil/ CPP
